WORK EXPERIENCE

Wheeler Machinery Company West Valley City, UT

Business Intelligence (BI) Developer January 2026 – Present

- Standardized raw Caterpillar dealer-system data for an enterprise warehouse by building a silver-layer naming and mapping matrix across 11 equipment tables, translating source codes into business-readable fields and flagging cross-table key and naming conflicts
- Built end-to-end data solutions from SQL extraction through cleaning, modeling, and delivery, producing 6 departmental dashboards now used as primary decision-making tools
- Automated Dealer Notification Alert data movement with a Power Automate + SharePoint pipeline that ingests alerts, syncs them to a validated tracker, routes notifications, and captures responses, cutting 24 hours/month of manual work
- Built 25+ rapid-turnaround data products for key customer accounts, transforming raw parts, demand, and shop-line data into clean, refreshable models, and converting repeat requests into versioned, reusable templates
- Partnered with operations and leadership to translate business requirements into scalable data and reporting solutions across finance, parts, and safety

Freight Logistics Analyst May 2023 – January 2026

- Saved ~$2.9M in freight expenses versus prior rate structures by analyzing multi-carrier shipment data and building accurate rate models
- Recovered ~$100K in carrier damage claims by building a claims process to identify, document, and file claims
- Redesigned the freight rate structure as a quarterly-refreshed model built from inbound and outbound carrier data, improving pricing accuracy and reducing loss
- Designed and deployed a warehouse employee-performance tracking system with weekly and 12-month views

VOLUNTEER / LEADERSHIP
